

PROGRESSIVES TO BACK GOVERNOR COX

Important Organization Claims Inability to Stand for Harding's Policy

Columbus, O., Oct. 16.—As Progressives of Ohio and supporters of Theodore Roosevelt, the members of the Progressive State Executive Committee of Ohio have decided to support Gov. Cox for president. The announcement was made by A. A. Andrige, of Cincinnati, as chairman. Senator Harding is denounced in the statement to the effect that he "has demonstrated that he is not a leader of men but rather a subservient follower of leaders like Penrose, Lodge and Smoot." It is stated that he always has opposed progressive movements and... referred to the amendments of 1912 as "the revolution in Ohio."

On the other hand Gov. Cox is praised for many reforms, including the initiative and referendum, and a program of social justice.

MARSHAL STIMSON TO VOTE FOR COX

(By Associated Press) Chicago, Oct. 16.—Democratic National Committee headquarters today made public a statement that Marshall Stimson, of Los Angeles, is announcing he will vote for Gov. Cox for president. Stimson was campaign manager for Senator Johnson, in Southern California. In 1910 he was a delegate to the republican national convention; in 1912 he was a member of the California republican state committee. He said he could not support Senator Harding's stand on the League of Nations, adding he would vote for Gov. Cox who had wisdom enough to take the side of right and courage enough to express his views positively.

Cox Advocates Local Program by the Women

(By Associated Press) Cleveland, Ohio, Oct. 16.—The National Women's Congress, which is to frame a program for social legislation for presentation to the president and congress, was advocated by Gov. Cox to an audience of women here today. He urged larger participation of women in national affairs, and also championed the League of Nations as a means to protect women and children from the horrors of war. The governor will remain here Sunday and tour New York Monday.

Burnheim For Gov. Cox

(By Associated Press) Louisville, Ky., Oct. 16.—I. W. Burnheim, wealthy distiller and for 30 years a contributor to and supporter of the Republican party, announced today that he will support Governor Cox because of the position taken by the republican relative to the League of Nations.

Harding's Talks Are Very Numerous Today

(By Associated Press) Indianapolis, Oct. 16.—Senator Harding departed from Indianapolis shortly before noon today. The republican candidate made numerous short speeches in Indiana and Illinois and will reach St. Louis tonight, where he will make the final address of the present tour. He has planned speeches for Terre Haute, Green Castle and Brazil, Ind., and Casey, Greengup, Effingham, Vandala, Greenville and East St. Louis, Ill.

Jap Discussion Stops

(By Associated Press) Washington, Oct. 16.—Conversations between the state department and the Japanese embassy regarding the proposed anti-Japanese legislation in California was discontinued until after the November elections, in which the California people will vote on the land legislation.

MASON TRIPLETS CREATE COURT STIR

When the name of Robert Mason was called to give testimony in a case in the circuit court on Friday morning, little attention was paid. However, when the name of Rankin Mason was called and there was a "dead image" of the retiring witness presenting himself, there was some interest shown by the liberal number present. This was nothing to the degree of interest, when the name of Alexander Mason was called, and another "duplicate" was presented. They young men are not only brothers, but are triplets, and their presence in the court room created considerable attention. The Mason brothers, sons of Mr. and Mrs. John C. Mason, residing south of the city in the Kavanaugh neighborhood, are apparently 30 years old, and, according to the saying, "alike as three peas." They are testifying in a case whereby they hope to establish the official line for division of property recently purchased. When seated side by side, there is such a resemblance that when one's name is called either could respond without being definitely recognized, except by one very familiar with them. Two of them served in the navy during the war, the third being left according to the board.

NATIVE OF MADISON DIES IN MISSOURI

Relatives in Madison have received news of the death at Excelsior Springs, Mo., of Robert Caldwell, who passed away at the advanced age of 90 years. Mr. Caldwell was a native of Madison county, but had been making his home in Missouri almost since the Civil war. He was raised in the Pond church section of this county. His widow was Miss Millie Cobb, also of this county, a sister of Mrs. Rhoda Embury and Col. Jesse Cobb. The deceased was the grandson of the Caldwell who donated the site of Caldwell High school to the city of Richmond. One son survives, Jesse Cobb Caldwell, who is the dean of Drake University at Des Moines, Iowa.

OVER A MILLION TO BE SPENT ON KY. HIGHWAYS

(By Associated Press) Louisville, Ky., Oct. 16.—The Post in a Washington special today, said Secretary Merideth, of the Department of Agriculture, had authorized Federal Aid to the extent of \$800,000 for road building in Kentucky. Inasmuch as the state must match dollar for dollar, the Post said this means an expenditure of \$1,600,000 on Kentucky roads.

TARVIA ARRIVES; WORK IS STARTED

City Streets to Receive First Attention—County Work Also to be Started Soon

Friday night a crew of men and a car load of material for the streets to receive tarvia, arrived in Richmond, and the work will be started Monday morning, under the direction of Councilman John Allman. The work of the city will be finished, it is expected, before that of the county is taken up, owing to the fact that the material is here and the desire of the citizens of Richmond to have the improvement as soon as possible. The tarvia will be placed on East Main street, connecting with the end of the street paving and with the railway crossing improvement, will render this entrance to the city one of the best. It will stop the necessity of filling holes with stones during the winter, an expensive and arduous task.

The work will be taken up at the end of the paving on Lancaster avenue and extend to the limits of the city, according to present plans. There will also be tarvia placed on lower Walnut street, the citizens there having petitioned City Councilman Charles Torrill some time ago and were assured that they would get the improvement. This street has been greatly beautified during the present summer through the residents taking civic pride, their pocketbooks and paint brushes, and proceeding with a complete transformation in the way of improvement work.

The county work will be taken up later, and with the arrival of the rest of the material, will not interfere with the work of the city, since the men employed by the county will have charge of most of the work of placing the tarvia on the county roads. The Irvine road is one that will receive the first attention. There are a number of other county highways to be treated. The big force of men employed in the county to the north have completed their work and Madison county will now be given attention with the result that the work will be finished, it is believed, within a short time. County Engineer J. G. Baxter is preparing to start the work as soon as possible, and will pull a number of men from their present work and place them in charge of the work of applying the new highway dressing.

STRIKE OF 1,000,000 SEEMS INEVITABLE

(By Associated Press) London, Oct. 16.—Premier Lloyd George today addressed a message to the nation asserting the government had done everything possible to avert the strike effective tonight of 1,000,000 miners, but the miners, rejecting all offers, are now trying to gain their end by force. The nation, it is declared, will resist such an attack with all its strength. The men demand increased wages. It is feared the railroad transport workers will join the strike.

Wrangle Successes

(By Associated Press) Sebastopol, Oct. 16.—General Wrangle, the anti-Bolshevik leader, is continuing his successes on the southern Russian front. This week he has captured 12,000 Bolsheviks and routed the 9th and 42nd Soviet divisions, captured many cannon, field guns, machine guns, a number of armored cars and trains.

Disorders in Londonderry

(By Associated Press) Londonderry, Ireland, Oct. 16.—Scenes of wild disorder occurred here last night when trouble, beginning when a band of men suddenly appeared and began firing pistols and rival groups returned the shots, a hot fusillade being maintained for some time. Pedestrians fled in terror. Soldiers soon arrived and cleared the streets.

(By Associated Press) London, Oct. 16.—Lord Mayor MacSwiney is much brighter today, but remains very weak, it is reported today, the 65th day of the Irishman's hunger strike in the Brixton prison.

COX SPEAKS IN HARDING'S TOWN

Marion, O., Oct. 16.—A rousing reception was given Governor Cox, democratic presidential candidate, at Marion, the home of Senator Harding, his republican opponent. Several thousand persons cheered and applauded the Governor. The Senator was out of town on his southern trip.

The big crowd heard the Governor from a temporary platform near the railroad station, several blocks from the front porch which the Governor has ridiculed for several weeks. Thousands packed around the stand and hundreds were perched on freight cars and housetops. Automobiles were parked thickly for blocks in every direction.

Arriving at 11 o'clock, an hour late two brass bands escorted the Governor to the platform near by, to which he walked amid handshaking crowds and had literally to fight his way through the cheering crowds. There were a few cries of "Hurrah for Harding."

Opening his address, the Governor told how he had gone through the country touching elbows with the people, learning their problems and permitting them to ask questions.

Seeing railroad men in working clothes in the crowd the Governor paid a tribute to the "boys in overalls" and said:

"We have fought together the forces of reaction," declaring that the "same forces of reaction and big business were arrayed against him."

"They want the rule of the bayonet and not the Golden Rule," said the Governor, reiterating that he had never "thrown a uniform of a soldier into an Ohio strike." The Governor's League arguments were loudly applauded, he repeated his charge against the "Senatorial oligarchy" and other arguments for the League, including that of a "conspiracy of silence."

He declared that the League covenant could not be obtained at any republican headquarters in the country. Like his custom with other audiences the Governor invited questions.

"No man in any meeting is going to be locked up for asking me questions," said the Governor, and the crowd gave a loud cheer.

More cheers greeted a remark when some of the crowd objected to interruptions of the questions, and the Governor said:

"Let him alone; I don't care whether democrats or republicans ask questions. I'm not making this fight as a democrat, but as an American."

One of the first questions was about the inequality of League voting power between the United States and Great Britain, and the Governor gave his explanation that Hitchcock's reservations have met the situation.

The Governor's views on the Irish question were given and cheered. The Governor spoke about half an hour and made no personal reference to his opponent. In closing he restated his position for the League with any good reservation. He again asked "some new faces in the Senate" and urged the election of the democratic candidate for Senator and also for Congress in this district.

FEW MORE FINED IN POLICE COURT

Just as he was calling the regular Friday night session of city police court to order, Judge Murray Smith received a telephone call to which he responded with the result that he went directly home, owing to illness in his family, and the adjourned meeting resumed Saturday morning.

There was a miscellaneous bunch confronting him, one man being fined for intoxication as a result of having imbibed too freely in patent medicine. Another for alleged gambling, and some youngsters were reprimanded for shooting craps. The lads were frightened, it evidently being their first offense, a fact not overlooked by Judge Smith, in his usual considerate way, extended some good advice which, to all appearances, will be heeded in the future. The slate had been cleaned until the middle of the week when the misdemeanors were reported.

MODEL HIGH WINS FROM WINCHESTER

Coach Embree's Eleven Takes Snappy Games Here Friday Afternoon by 26 to 0

The Model High school eleven, playing its first game of the season, piled up a score of 26 points to 0 for the Winchester High school team on the Normal school field Friday afternoon. The two teams were about evenly matched in weight and from the first kick off showed real fighting spirit, but the excellent playing of Captain Bill Crutcher and his men proved too much for the Winchester team and no time during the game was the home goal in any immediate danger. The players of each team showed the true qualities of real sportsmanship had been inculcated in them from the beginning of the season.

Coach Embree has material out of which a high school team of the finest caliber will be made and for the past week or so has been giving them some real workouts. From the game Friday it seems that about the most promising player is Bill Crutcher, captain of the Model team, who gained the admiration of the men on both teams as well as that of the spectators by his steady line plunging and broken field running. On forward passes and end runs, however, the line came up with its part by always being able to hold the visitors. Blanton, quarterback of the home team, used his head to good advantage in the running of the team, and under his direction the ball was kept in the opponents' end of the field at all times. Adams, who was playing in the back field after one day's practice in that position, made several good gains. Kit Crutcher, brother of the captain, is showing up as a sure tackler and, although only a young chap, seems to be producing the goods as a defensive player.

There was a splendid crowd out for the game. The Model High team will have another game within the next week and Coach Embree is making preparations to whip the youngsters into even better fighting shape. He is handicapped to a large extent in that there are not enough fellows out for either the Normal team or the High school eleven to insure a scrimmage during the daily practice, but regardless of this inconvenience he is doing some admirable work with the fellows on both teams, as is evidenced in the winning of the two games from Paint Lick by the Normal team and the outcome of Friday's game.

The lineup of Friday's game was as follows:

Model	Position	Winchester
William Blanton	Quarter	Byrd
Ballard Luxon	R. T.	R. T.
Coleman Covington	R. E.	R. E.
Clarence Salver	R. G.	Talbot
Shelby Carr	C.	Watson
James Allen	L. T.	Haney
Henry Arnold	L. E.	Talbot
Leslie Evans	J. L. G.	Talbot
William Crutcher	E. B.	Wells

NEW BURGLAR ALARM IS VERY "TOUCHY" AFFAIR

The new burglar alarm at the Madison National Bank has been installed properly and is said to be one of the most complete and "touchy" in existence. When the big vault doors are now closed for the day, there is absolutely nothing doing in the way of manipulation, since there is a most intricate electric wire system, that is susceptible to the least touch, and the big gong in the front of the building will sound and alarm, regardless of the time of day or night. The apparatus is so arranged that the wire connection cannot be cut, hence the complete safety of the vault and immediate vicinity from molestation in any way. It is the only one of the kind in this part of the country. It is understood a number of banks in other cities are preparing to install similar devices.

Mr. and Mrs. A. B. Wagers and Mr. and Mrs. John F. Wagers, of Cincinnati, were here for a week-end visit to Mr. and Mrs. M. W. Miller at Waco. On their return Mr. and Mrs. Miller accompanied them for a few days' stay in the Queen City.

Mrs. Sallie Rauburn, of Henderson, N. C., Mrs. William Simmons, of Centralia, Mo., and Mrs. Bettie Harber, of this city, were dinner guests of Mrs. Collins Yates, Friday.

SECOND Y. M. C. A. VOCATION MEETING

The second of a series of meetings at Eastern Normal for the purpose of assisting young men to choose vocations, was held Friday night at the institution, Prof. C. D. Lewis delivering a most interesting talk on Y. M. C. A. work generally, which organization is at the head of the movement. The instructive discourse was enjoyed by a large number. The various phases of the work was outlined, and some interesting facts concerning its origin and maintenance, together with the work required to maintain its standard were presented. Prof. Lewis is a most interesting speaker, and the manner in which he presented the information appealed to all who heard him.

Thomas Baldwin, on "Successful Farming," will be the speaker next Friday night. This will appeal to many of the young men from the rural districts, who are coming in for their share of recognition this year at the school. They will be treated to both early and modern manners in which successful farming is maintained, the progressiveness of the country in general due to the late methods of expediting work on the farm, together with the manner of selecting seed, and other matters pertaining to the essential points in agriculture.

BURGLAR CUTS WINDOW SCREEN

Shortly before 2 o'clock Friday morning, Mrs. George McCoy, residing at 338 North Fifth street, was awakened by an unusual noise. She heard the noise at a rear window and getting up, peered through the glass. She saw the form of a man, busily engaged in cutting the screen. She aroused her husband, who turned on a light, procured a revolver and sallied forth. He reached a rear door just in time to see the man run through the yard at the rear of the home and scale a back fence. Mr. McCoy stated he could not recognize the man, who lost no time in getting away, apparently frightened when the light was turned on. An investigation showed most of the screen cut from one of the windows and another had been tampered with. This is the first time burglars have been reported for some time in the city.

Prisoner Lynched: The Claim Dismissed

Elizaville, Ky., Oct. 16.—G. W. Powell, deputy sheriff of Fleming county, has received a letter from Governor Morrow dismissing the claim made for expenses by Sheriff Smith in connection with the effort to bring back Grant Smith, colored from Michigan, for trial in Fleming county on an alleged assault on a white girl 14 years old. Smith was taken from Sheriff Powell and Chief of Police Link, of Paris, upon their arrival in Paris with the view of keeping Smith in the Bourbon county jail until he could be more safely sent to Fleming county for his trial. Smith was lynched by a mob.

Governor Morrow in his letter says Powell failed to use proper force to defend the prisoner, and for that reason he has dismissed the claim. Sheriff Powell recites the fact that he and Chief Link were surrounded by a mob with a dozen or more guns leveled at them, and that resistance to the mob would have been useless.

DOVE SEASON CLOSES

The dove season, one of the most successful in years, has closed. Dr. O. F. Hume and a party of friends were in the country Friday afternoon the final day for hunting them, and reported the birds as being numerous. They were about as numerous after the party returned to the city. So much for their marksmanship.

COUNTY SCHOOL BOARD ELECTION

Some Members of Present Organization Have Filed Petitions Under New Law

While the new election law pertaining to procuring county school boards will occur next month, and will be observed in Madison county, it is the general belief that there will be few, if any, changes in the personnel of the Madison county board. Since this is the first experience along this line in this county, considerable interest is manifest.

Candidates for office have until Monday evening to file their petitions. It is known there have been a number of well known residents who have aspired to the position as member of the board who have filed their petitions. It is a fact, also, that a number of the members of the present board have their petitions in for the first election. It is not known whether all the members of the present board will desire to stay. All have, as a matter of fact, not filed election petitions. Some of them have been serving faithfully for a number of years and have gained extensive knowledge of the manner of conducting the business connected with the schools of the county.

Parents of children in some instances also assert they have candidates whom they will urge to race for the positions. This, however, is highly speculative as to results. The office of board member entails much work, time and consideration. Knowledge of school progress as well as the management increases the value of the member, as well the interests of the county. Members of the present board recently inaugurated a system of regular meetings. These are just beginning. Heretofore the board would be subject to a called meeting at most any time. Some are said to have devoted much time to the interests of the schools.

MADISON HOUNDS READY FOR THE FRAY

If that big silver cup, prize for the derby winner at the Central Kentucky Fox Hunters' Association, is won by an outsider, he had better get busy, since there will be more than two surprised men if the cup is not retained this year again by a Madison county man. The cup, which is on exhibition at the office of County Clerk Jennings W. Maupin, has strayed from the county but for one year. There are two years to the credit of Alex. Parrish, who won it in 1916 and 1919; one year to Maupin Brothers, of this city, and one year, by L. B. Shouse, of Lexington.

Maupin Brothers are firmly of the belief that the cup will remain here and that the next engraving, for that this year, will be something like the following: "Won by Maupin Bros., in 1920."

It requires three years winning to retain the cup permanently. Messrs. Maupin believe they will win it this and next year.

WHY I AM FOR COX

(Letter in Courier-Journal)

After a six months' perusal of party platforms, editorials and political speeches of both Republicans and Democrats, as a new voter I have decided:

I shall vote for Cox because he has many of the admirable characteristics of the late Col. Theodore Roosevelt.

I shall vote for Cox because he has enforced laws in Ohio.

I shall vote for Cox because he has lessened taxes in Ohio, and our Republican Congress has not lessened taxes in the United States.

I shall vote for Cox because he knows what he will try to accomplish after election.

I shall vote for Cox because he endorses the League of Nations, a stepping stone toward the needed "Peace on Earth."

I shall vote for Cox because he does not advocate sending our boys to Mexico.

I shall vote for Cox because he will not send our boys to war without the consent of Congress.

I shall vote for Cox because he does not advocate a separate peace with Germany.

I shall vote for Cox because he has a specific programme in regard to international problems.

I shall vote for Cox because he is not Mr. Wiggle and Wobble.

I shall vote for Cox because he is as "dry" if not dryer than Harding.

MRS. GEORGE PHILLIPS
Louisville, Ky., October 15.

SAFETY FIRST

We want it to be distinctly understood that when we lambast a Republican hip and thigh, or land on the bone-head of a Democrat, that we mean the male of both species, and not the ladies. The ladies, Lord bless 'em, are all right, anyway, whether they are Republicans, Democrats, Socialists, Mormons, Mugwumps, Hardshell Baptists or otherwise. We love every one of 'em blonde, brunette, auburn, peroxide, old, young or half way between, politics or no politics.—Brigham City (Utah) Journal.

Theodore Roosevelt For Article X

Progressive republicans and independents must find themselves in a strange dilemma today as they try to see their way clear to support Mr. Harding for president. Any man who was a follower of Theodore Roosevelt, the greatest republican of them all for half a century, must resent the present campaign of the republican candidate to "scrap the League." The fight of the campaign has centered on "Article Ten." And yet in 1910, speaking before the Noble Prize committee, Theodore Roosevelt looking to world peace, after declaring that the territorial integrity of each nation must be considered inviolate, said, "and then and most important of all nations should severally guarantee to use their entire military force, if necessary, against the nations which defied the decrees of the tribunal or which violated any of the rights which, in the rules, it was expressly stipulated should be reserved to the several nations, the rights to their territorial integrity and the like." This is the exact content of the Article 10 idea.

Roosevelt and not Wilson then originated the plan to put teeth in the international situation. Can any self-respecting progressive republican who followed Roosevelt in those days of his great life, repudiate at the polls

this program of his former chief and vote for a man who has declared that he will never endorse such a program? If Harding bows the knee to Penrose, Smoot, Lodge, Borah, and Johnson now, in an effort to kill League, what possible hope is there, if he should be elected president, for any international pact which will be worth the paper it is written on? If the great republicans were living today he would be leading the progressive element in his party toward the honorable fulfillment of our obligations to the world and unquestionably would repudiate the vacillating program of the reactionary candidate for president.

What Does the Church

Think of the League of Nations?

A pamphlet recently printed by the Kentucky Democratic Campaign Committee gives the answer. It shows that clergymen are in favor of the League by the ratio of 18 to 1. 15-300 clergymen signed the following petition:

"We, the undersigned clergymen, urged the Senate of the United States to ratify the Paris peace treaty embodying the League of Nations covenant, at the earliest possible date without amendments or such reservations as would require re-submission of the treaty to the peace conference and Germany."

816 who were asked to sign refused.

Vice President James R. Marshall will spend three days in Kentucky campaigning for the League of Nations and the democratic ticket. Monday night he speaks at Lexington and on the platform with him will be Dr. E. L. Powell, pastor of the First Christian church, Louisville. Tuesday afternoon at two o'clock the voters of six counties in the 11th district will gather at Corbin to hear him and Congressman David H. Kinchloe will wind up his tour with a speech in Paducah on Wednesday night. Vice President Marshall is of rather frail physique, and if therefore booked for only one speech a day. He will not make any rear platform addresses.

Philadelphia, the home of republicanism, has been deeply stirred by the bolting of Col. Samuel P. Weatherall, Jr., who has been a republican all of his life and a member of the Union Club for 17 years. "I cannot vote for Senator Warren G. Harding," he said. "The things we fought for are sacred, and I can't agree with Mr. Harding's attitude on what he calls the Wilson League, and I intend to vote for Mr. Cox." Col. Weatherall served in all of the important operations in the Argonne.

Harrison S. Morris, art critic, writer and a progressive republican, deserted Harding since he announced that he is in favor of the rejection of the League of Nations. Mr. Morris has been managing editor of the Pennsylvania Academy of Science Arts for ten years, and a life long republican. "To give up the League," he said, "is to my mind, to surrender everything for which we entered the war."

Always regarded as the most republican of newspapers, the Springfield Republican of Springfield, Ill., is decidedly unfavorable to Harding. "Mr. Harding's election could not possibly promote progressive causes. Gov. Cox's record as Governor of Ohio is the record of a progressive or nothing. If the country wants reaction it won't elect Cox. The fact that all of the leading followers of Mr. Roosevelt in 1912 are with the Democrats this year, indicates the choice that the true progressive makes between the two candidates."

BANKER A. H. HAMPTON DIES AT AN ADVANCED AGE

Winchester, Ky., Oct. 16—A. H. Hampton, Sr., 71 years old, banker of Central Kentucky, and for many years cashier of the Citizens Bank of this city, died at his home on the Boonesboro pike, Thursday afternoon, following a long illness.

He married Miss Amelia Moore who died about three years ago. Two sons and two daughters, T. M. Hampton and A. H. Hampton, Jr., Misses Fannie and Marie Hampton; and one sister, Mrs. Kate H. Bush, survive.

Good Appearance—

"Gold Dollars for Fifty Cents---"

You've probably found its only loss of time and energy to go searching for "gold dollars for fifty cents"

Good clothes, Kuppenheimer good clothing, demand a certain standard of materials, skill and workmanship

—and to obtain these at the time the clothing is made, prevalent prices must be paid.

Maybe this explains the situation more clearly to you:

The reductions of this past Spring and Summer were the result of delivery conditions (freight congestion), late weather and the banks'

pressure on merchants. The merchant had to sacrifice in order to get the money to meet his bills.

This abnormal situation in no way had an influence on Fall prices.

Merchants have been compelled to pay MORE for good Fall clothing than they paid for Spring's good clothing.

DON'T let someone tell you that prices have gone down—and palm off inferior merchandise for a price-tag higher than it should be, and slightly below the price of good clothing.

Kuppenheimer Good Clothes

are honestly priced. You'll find that out—we hope by getting into them at once instead of experimenting to your disappointment.

WEAK; RUN-DOWN

**Carolina Lady Got So She Could
Just Drag—"Cardui Built Me
Up," She Declares.**

Kernersville, N. C.—In an interest-
ing statement regarding Cardui, the
Woman's Tonic, Mrs. Wesley Mabe, of
near here, recently said: "I have
known Cardui for years, but never
knew its worth until a year or so ago.
I was in a weakened, run-down con-
dition. I became draggy—didn't eat or
sleep to do any good; couldn't do any-
thing without a great effort. I tried
different remedies and medicines, yet
I continued to drag.
"I decided to give Cardui a trial,
and found it was just what I really
needed. It made me feel much strong-
er soon after I began to use it. I be-
gan to eat more, and the nervous,
weak feeling began to leave. Soon I
was sleeping good.
"Cardui built me up as no other
tonic ever did.
"I used Cardui with one daughter
who was puny, felt bad and tired out
all the time. It brought her right out,
and soon she was as well as a girl
could be. We think there is nothing
like Cardui."
Do not allow yourself to become
weak and run-down from womanly
troubles. Take Cardui. You may find
it just what you really need. For
more than 40 years it has been used by
thousands and thousands, and found
just as Mrs. Mabe describes.

PARKING ORDINANCE

The new ordinance regarding will be one of the features of the next meeting of the City Council on next Thursday night. The members of the council are investigating the most practical way in which to have cars cared for, the accommodation of the people and the least danger of accidents. The measures will be presented, it is expected, and given lengthy discussion, suggestions which have been made to various members of the council will be reported and perhaps acted upon.

Councilmen have been studying conditions in other cities where there are ordinances of various kinds, with the view of securing the best results possible.

In Memory of Mrs. Lucy Estes

The Lord thought best to take away The idol of our heart: He chastens all He loves, you know, And sends each cruel dart. But still we cannot say just yet, "God's will, not ours, be done," For the home circle is broken now— Its brightest gem is gone. But still we should not call her back To suffer longer here. When we feel she is waiting over there, So far and yet so near. When around the parental hearthstone we shall gather, There will be a vacant chair: 'Tis there we will miss you most, dear Lucy— But we will miss you everywhere. The circle on earth is broken, For still in death she lies: But we, pray the circle will not be broken In the Home beyond the skies. Brothers and Sisters, There is not nearly as much noise being made now as will be in the case of fire when Councilman Bob Gold- en gets that new siren.

LEFT WIFE ALL PROPERTY

Lexington, Ky., Oct. 16.—Did Ernest L. March, prominent and wealthy furniture dealer, of Lexington, and former Police and Fire Commissioner of this city, who was shot and killed at his home by Constable Geo. Rose, for alleged mistreatment of Rose's 14-year-old granddaughter, have a premonition that his death was near? The will which was made three days prior to his death, gave his property, amounting to \$100,000, to his wife.

If you have an automobile or a truck driver, it might be a good idea to cut out a copy of those ordinances and paste in your hat.

Gov. Cox received a hearty welcome at Marion, O., the home of Senator Harding.

THE COMPULSORY EDUCATION LAWS

To be Upheld by Prosecution of Negligent Parents—County Schools Flourishing

Truant Officer, W. A. Johnson, who has been a deputy marshal for 15 years, is now Madison county truant officer, states that he is having his troubles—so are some of the runaway boys, as well as parents charged with negligence in sending their children to school. There is a goodly list of this element, it is reported by the officer, and he is paying special attention to them.

There are a number of boys who have been located in various other counties, who will be returned to their parents, some of whom will be given a trial while others will be sent to the reform school, he claims. Many who have had working permits are returning to school, on schedule time. There were many excuses for this purpose.

The attendance at county schools is generally, very good. Illness in some localities is keeping many from their studies. There are several cases of scarlet fever as well as diphtheria, and considerable consternation was caused in various sections because of its appearance.

It is the intention to uphold the compulsory educational law to the letter, and as a result, the first prosecutions of parents for failure to send their children to school will be made within a few days. Warnings have been unheeded, Supt. Ben Edwards states, and the result will be the prosecution of the children. It is said there are few absentees as a result of the waywardness of the children, considering the number in attendance at the county schools.

Progress in the schools have been very satisfactory since the beginning. Social gatherings have been more numerous than usual, and athletic and manual training has been more extensive. The reports from several schools for the first month show that despite the beginnings, which is usually attended by more or less drawbacks, considerable progress has been made.

CITY TO BECOME ATHLETIC CENTER

American Legion, Eastern Normal and Madison High to Present Unusual Field

The initial movement looking toward a football team of ex-service men will be in evidence next Wednesday afternoon at 2:30 at the Eastern Normal campus grounds, when the first practice will be taken up. There has been a call issued to all veterans, whether or not they are members of the American Legion, who are interested in the game, to respond and participate in the practice. There will be a football team organized from the aggregation of sport-loving veterans and the first real game will be with the team from the Berea post on November 11, Armistice Day.

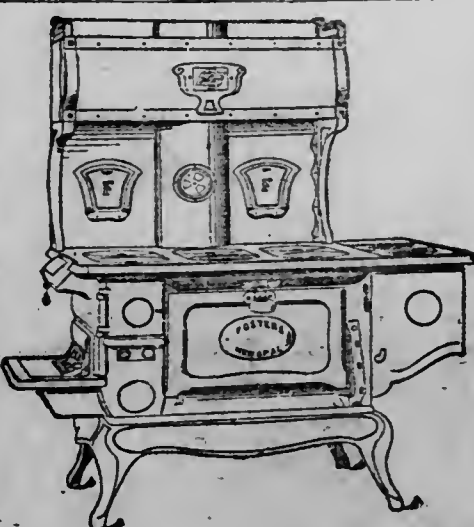

The football team will be but a start that is to be made relative to the sport feature of the local legion post. There will be basketball and track work besides, and it is the intention to have the football team well organized as soon as possible. As soon as the organization takes place there will be practice for the opening game of the season. It is the intention to continue the sports throughout the fall and winter. The basketball and track teams will be organized later. This movement, which will bring to Richmond an extensive line of sports, will greatly increase outdoor exercise, since the teams affiliated with the legion will be able to connect with those of the Eastern Normal, and regular games can be played at will. The track work will also be taken up later, as well as other sports. The stress at present will be laid upon the football team from the fact that the challenge from Berea has been accepted and it is the intention to be in condition to make a good showing upon that date. The game will be played here and will be the first between two posts representing young men who were in the ranks during the recent great conflict.

The several athletic teams representing the legion, together with those of the Eastern Normal and the Madison High school will represent the greatest aggregation of athletics ever recorded in the city and will make Richmond a sport center and athletic field that promises to become known far and wide.

There will be considerable interesting from the standpoint of young women and girls, since there will be basketball teams representing local high schools as well as Eastern Normal and it is expected that when the auxiliary of the legion gets under way there will be a list of athletics as well as social affairs that will attract the attention of many.

It is known there are many girls in the Madison High school who are enthused over athletics, and a member of the faculty said there was material for one of the strongest basketball teams of any high school in this part of the state, if developed. The same can be said of those of the Eastern Normal, and attention will be given these issues, it is said, in the near future.

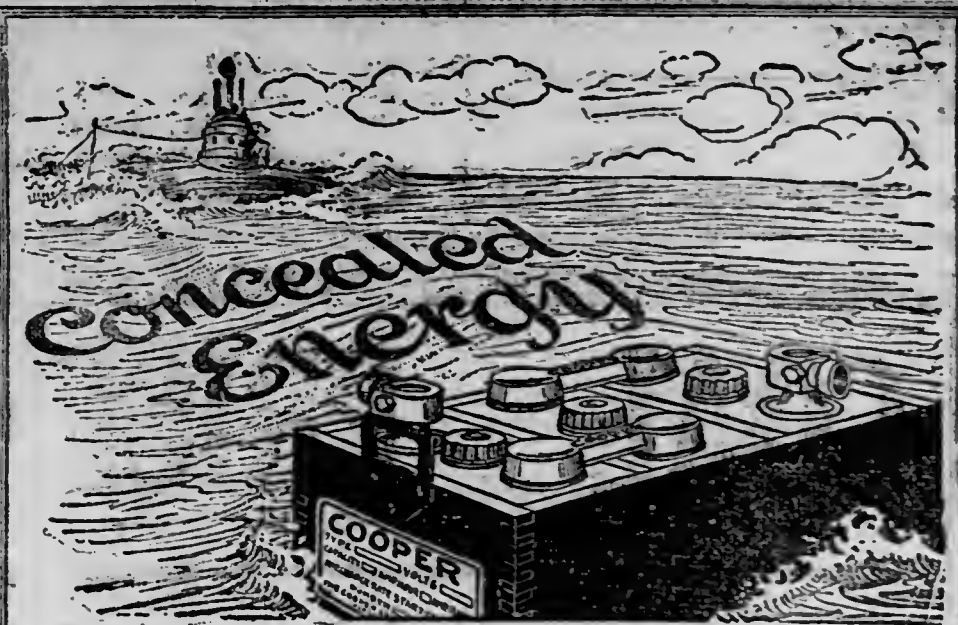

AT ST. LOUIS CONVENTION Rev. D. H. Matherly, of the Second Christian Church, who is attending the National Convention of the Church of Christ at St. Louis, this week, will return home Saturday. He will have a report of the Convention for the members of his church upon his return.

A "Mysterious" Force

ELECTRICAL ENERGY, that mysterious force which starts your motor, lights your lamps, provides your car with other conveniences that add to the pleasure of motoring, is supplied through the power house of your automobile—the Storage Battery. Whether the power supplied is sufficient to meet the requirements of your electrical system, giving efficient lighting service and instant starting power, will depend to a great extent upon the construction of the battery.

A Battery of Unusual Construction

The COOPER Battery is built to give the maximum service. Its heavily plated plate of a special composition enables it to stand a heavy discharge without breaking or buckling, and further assures you in the terms of a guarantee that it will render satisfactory starting and lighting service for a longer period than the ordinary battery.

For the sake of safety, if for no other reason, you should have your battery inspected every 15 days. Stalled on a railroad crossing, or without lights on a dark road, etc. are misfortunes that may befall you at the most critical moment. Take advantage of the service we offer.

NO CHANCE FOR RACE

Philadelphia, Pa., Oct. 15.—Samuel D. Riddle, owner of Man o' War, has announced that he has decided to refuse to run Man o' War against Exterminator for the \$50,000 purse offered by M. J. Winn, general manager of the Kentucky Jockey Club, for a race at a mile and a half over the Latonia course. The great horse has finished his racing career.

Mr. Riddle also spiked the story that Man o' War would be taken to England to run against the best of the three-year-olds in that country.

"There is not enough money in existence to take Man o' War out of this country," he said. An offer of \$400,000 for the great horse, made by a Canadian who wanted the horse for breeding purposes, has also been refused.

H. Clay Stone reports that he has one of the best tobacco crops in years on his farm near Paris.

Madison tobacco producers state after all, they will have a pretty good crop, rust or no rust.

The Product of Experience

Dear Sir:

There's a feeling of security in the possession of a Chevrolet "Four-Ninety" Roadster that grows deeper every day.

Its performance is a known quantity and you come to depend upon it more and more for every transportation purpose in your daily life and work.

It is always ready for service when you want it. You are secure in counting upon it to carry you in comfort and conveniently wherever you want to go—regardless of distance or road conditions.

This is the kind of reliability that eliminates the unpleasantness from the business trip and adds pleasure to your recreation.

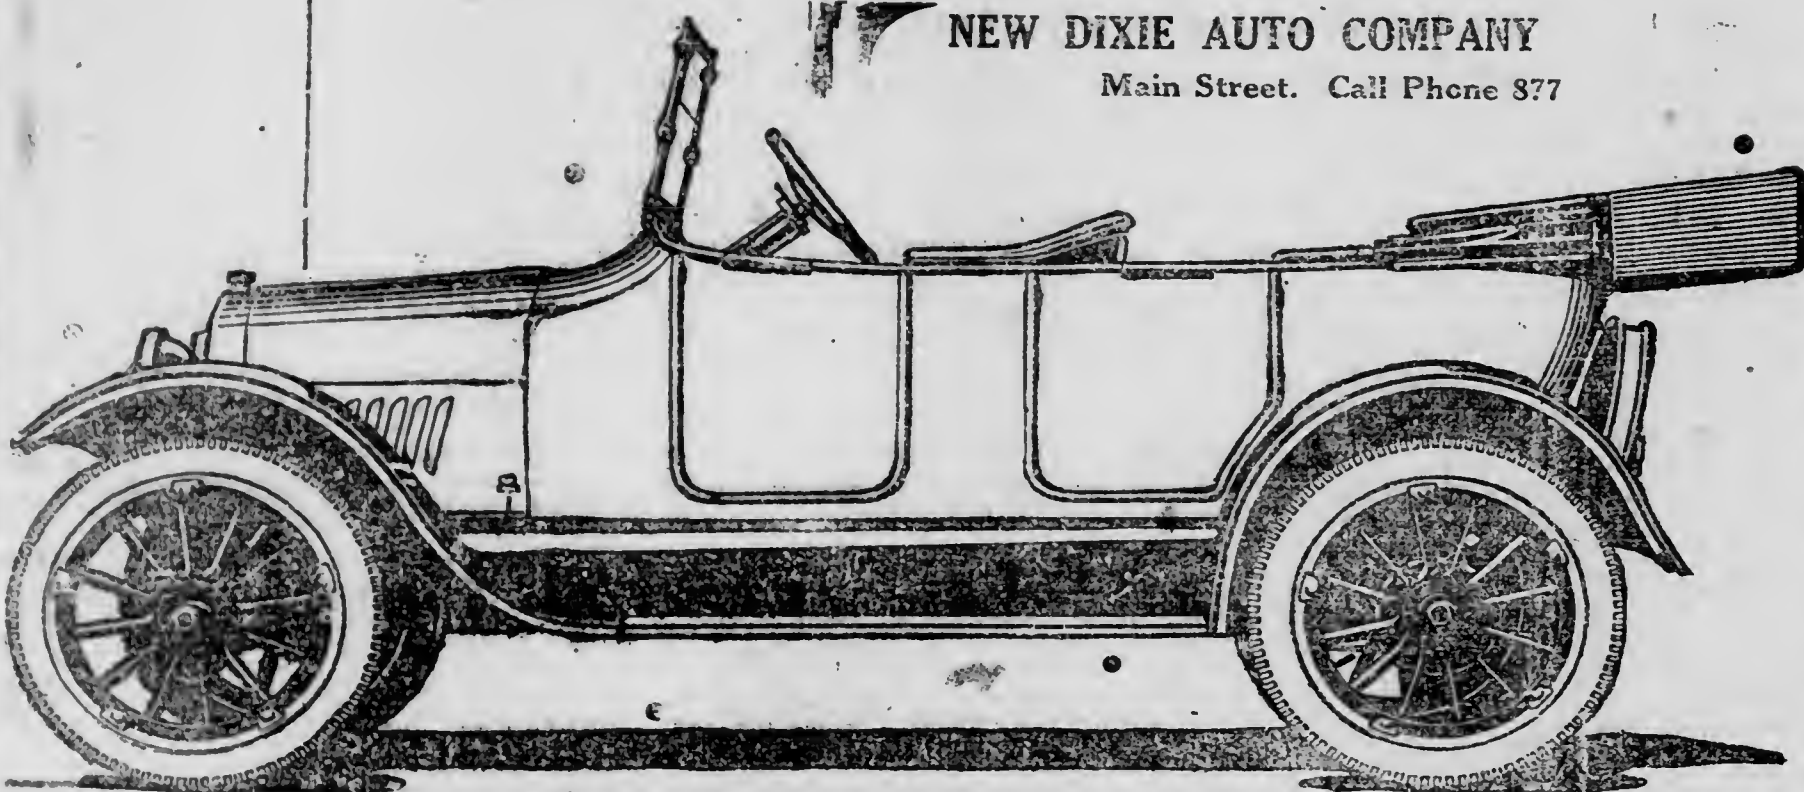

And this same "Four-Ninety" Roadster, by reason of its motor and mechanical construction means the least possible expense to operate the car.

What we tell you is what any Chevrolet owner will tell you. And the number of Chevrolets you see in use everywhere is proof of it.

Give us an opportunity to tell you more reasons why the Chevrolet will give you lasting satisfaction—reasons that will have the support of any owner you ask.

Yours very truly,

Mr. and Mrs. M. W. Miller have returned from Cincinnati after a delightful visit with Mr. and Mrs. A. B. Wagers.

Mrs. J. J. Wilson, of Danville, spent the week-end with friends here.

Mrs. W. A. Simmons, of Fayette, Mo., Mrs. Sallie Rayburn, of Hendersonville, N. C., and Mrs. Bettie Harber, of Richmond, were guests of Mrs. Vardy Taylor several days this week.

Rev. O. O. Green, pastor of the Richmond Baptist Church, who has been conducting a very successful revival at the Baptist church, Perryville, has returned home. Nine additions to the church are reported. The attendance throughout the meetings was reported as being very large.

MOTHER'S ABSENCE IS CAUSE FOR TRIAL DELAY

A resident of the Tate's creek locality, accompanied by his two daughters, were in juvenile court on Friday morning at the instigation of the parent, who stated to County Judge W. K. Price that his daughters, whose ages he gave as 17 years, were incorrigible. The fact that the mother was not present and the girls' denial of their father's statement as to their age caused the case to be carried over until a later date. The girls declared they were 18 years old. The testimony of the mother is what is desired most at this time upon the part of Judge Price.

Sanitary conditions are so poor in Carlisle that measures are being taken to improve them extensively and immediately.

"WILDCATS" SCHEDULE

Lexington, Ky., Oct. 16—The football team of the University of Kentucky has completed two of the games of its schedule, and is now preparing to begin the series of six hard games which will terminate with the Thanksgiving Day game at Knoxville, Tenn., against the University of Tennessee.

The Wildcats are enjoying one of the most successful beginnings in the most promising future of an University of Kentucky team for several years. The first game of the schedule was played on October 2 in Lexington with Southwestern University, and resulted in a victory for Kentucky by the score of 61 to 0. The second game was played on October 5 also in Lexington, against Marysville College, with the results of, Kentucky 1, Marysville 0.

With this excellent beginning the Wildcats are about to start the following heavy schedule in which they will meet some of the strongest football teams in the country:

October 16, Miami University at Oxford, Ohio.

October 23, Sewanee at Lexington

October 30, Vanderbilt at Nashville

November 6, Cincinnati at Lexington.

November 13, Centre at Lexington

November 25, University of Tennessee at Knoxville.

The secret of the marked improvement of the 1920 squad over recent Kentucky squads is the presence at the University of one of the best football coaches obtainable, Coach Wm. J. Juneau, formerly of the University of Texas. The new coach comes to Kentucky with a most remarkable record, his football teams having won state, conference and sectional championships.

FOX HOUNDS SUCCUMB, RESULT OF DISTEMPER

Distemper among fox hounds continues to create much consternation among owners and a number of dogs have succumbed to the disease. There was an epidemic some time ago in the county, but there were few deaths as a result. William Burgess, owner of a fine kennel of dogs, reports that four have died as a result. He has separated the remaining ones, bringing some of them to the city, and all Virginia mine strike, which threatens to break out anew.

BOLTING FEVER

HITS THE G. O. P.

Party Leaders Unable to Swallow Harding's Latest Pronouncement on League

Louisville, Ky., Oct. 14—Consternation has been thrown into the ranks of the republicans by the epidemic bolting among notable leaders of that party for the past few days.

The direct cause of this epidemic is Senator Harding's announcement that he is for the rejection of the treaty of peace with or without reservations, having been driven to this stand by threats of Senator Borah to desert his party unless Harding took this position.

The first G. O. P. leaders to leave on this account is Herbert Parsons, members of the republican state and republican national executive committees from 1916 to 1920. Mr. Parsons said, "I am for the League of Nations. Cox is for going in. Harding is not for going in, so I am for Cox."

Close on the heels of Parsons comes news that Hamilton Holt, editor of the Independent Magazine, a republican, and vice chairman of the Executive Committee of the League to Enforce Peace, has deserted Harding to support Cox and the League of Nations. Mr. Holt made known his decision in a letter of congratulations to Mr. Parsons, expressing the hope that Wm. Howard Taft, President Lowell, of Harvard, Herbert Hoover, Oscar Straus and George W. Wickersham, other leaders in the League to Enforce Peace, would follow his action.

The next big bomb shell in the republican party came when J. O. Thompson, of Birmingham, denounced his party as being controlled by reactionaries and came out for Cox and the League of Nations.

Mr. Thompson was chairman of the state republican committee of Alabama for eight years. Collector of Internal Revenue for nearly ten years, and Referee of patronage under President Taft. He was the republican nominee for Governor in 1910 and for Representative in Congress in 1918. He was always been aligned with the progressive elements of the republican party.

The fourth serious fracture to the republican lineup occurred when the Chicago Evening Post, a progressive republican paper, deserted, Len Small, republican candidate for governor of Illinois, urged its readers to vote for Hamilton Lewis, democratic candidate. The Post is an enthusiastic advocate of the League of Nations, and daily is expected to desert the candidacy of Senator Warren G. Harding.

More defections from the republican camp are inevitable as the pro-League republicans from day to day see this great project dug deeper into the dirt by their presidential candidate, they will be forced to turn to the democratic party for the success of the chief moral issue in the world today.

TIPS ON SEED POTATOES; HOW TO PROCURE BEST

Every year there are many farmers in the state of Kentucky who will go in the market and buy high priced seed potatoes. They claim that their potatoes have run out and it is necessary for them to go and buy new seed. This may or may not be true, but it is a known fact that the farmers who select their own seed potatoes will, in a few years, have a better strain of potatoes, especially

adapted to their own soil conditions, than it is possible for them to buy in the open market. A few simple rules in making these selections will help to improve the quality and quantity of potatoes. In the first place, good hills that have a large number of medium to large tubers should be selected and placed in separate boxes at digging time. This is the only time possible to save good seed.

BOOZE AND CRAPS BRING COURT MEET

Had it not been for a number indulging in patent medicines to an unusual extent, and a number of craps-shooters admitting of the police swooping down upon them Thursday night, there would have been no session of the city court Friday night. However, there will be a number given hearings on the above charges as a result of the vigilance of the police.

Until the last half of the week no arrests had been made and things were reported as "normal." The outbreak came with the simultaneous apprehension of a number of men being charged with intoxication and others with having been guilty of rolling the bones.

There have been no speeders arrested for a period of two weeks and it is believed that the stiff fines imposed by City Judge G. Murray Smith will have a "quieting" effect upon those disposed to make speed while within the confines of the city. The period of violations both in the city and county seems to have ceased suddenly, since there were a number of convictions in the county court recently, after which there is said to have been no more violations.

REPORTED DEAD, IS NOW A STUDENT

Unusual Experience of Veteran Who Carries Notice of His Own Death On Battlefield

To be officially reported dead in France, return home, be provided with the official notice from the war department of your death in the trenches, meet friends who had mourned you as dead for months, is the unusual experience of Franklin Webster, a young ex-service man now a student at the Eastern Normal.

Should it have been left to him to state it, however, there would have been no statement made, since he is of the unassuming, modest type which has developed so extensively since the close of the great war among the brave young men who took their chances and offered their services to their country. Mr. Webster, who is a former student at Eastern Normal, was the cause of an additional gold star being placed in the service flag at that institution. It was only when he came in contact with friends who believed him dead that the facts came out.

Webster, who is from Owen county, joined the ranks of Company I, 125th Infantry, and went to France. It was while he was together with twelve other men busily engaged one night cutting the wire entanglements of the German line that one of the operators made a little too much noise, and there was a deafening explosion, then a vivid flash, a plowing up of the ground, and all seemed over. Seven hours later, when the brave little party had been reported killed, officers inspected the territory. In doing so, they stumbled over the foot of one Private Franklin Webster. Then the digging began. The bodies of all were recovered, but the Owen county man was the only one who could be resuscitated. He attributes the saving of his life to the fact that his gas mask was properly adjusted. He finally recovered. In the meantime, the news of his death had been flashed and the word was received at his home, where appropriate funeral services were conducted. The officers of Eastern Normal were informed of his death through the war department, and another gold star was added to the flag at the school.

Webster finally recovered and eventually returned home. It was when Uncle Sam reached the stage where insurance was due relatives of the young veteran that it was learned he had been virtually snatched from the jaws of death almost as if by a miracle. It developed, also, according to the reports of the officials of the company, that the men had been buried for a period of seven hours, the one out of thirteen being saved. Mr. Webster will not speak of the experience unless confiding to a friend, and it was up to his friend to divulge the details of his experience after his arrival at the school, where he will remain until the end of the term.

CORN CUTTERS IN FROM THE NORTH

Friday morning a large party of workmen—corncutters—said to be from Michigan, passed thru the city for Frankfort, 20 of them stopping off in Richmond. They dispersed, later going to the country. Charles Wright, one of the party, stated he had started the work in Kentucky for the past six years, and each year had begun in Madison county.

He said the men would spend some time here, after which they would operate elsewhere, as corn ripened. Wright claimed there was a greater number of men than usual coming from the north this year, owing to the scarcity of farm workers here, and felt assured all would be steadily engaged within a day or two. Some of the

men are professionals and experts at this work, Wright said, claiming they had records for cutting the largest quantity of corn daily of any men to be found. The men contract to do the work by the shock, exclusively, he stated, moving from one locality to another.

An Ideal Country Home of Ninety Acres of Blue Grass Land at

PUBLIC AUCTION

We will sell for Howard Vanarsdale, Executor of the
Late E. M. Vanarsdale on

Wednesday, October 20th

AT 10:00 A. M.

Ninety acres of Blue Grass land on the Harrodsburg and Danville pike, four and a half miles from each of these two good towns. This will be an absolute sale. The farm will be sold in two tracts.

TRACT No. 1

Contains about eighty-three acres. The improvements consist of fine two story frame residence, seven rooms, lights, bath, large pantry, halls and porches. Nice stock barn and all other necessary outbuildings. This is one of the most beautifully located homes in any of the surrounding country. There is also a nice modern tenant house on this tract and all of the buildings are in a splendid state of repair. The land is very productive and is well adapted to the growth of all crops cultivated in Central Kentucky. This is a very attractive home, beautiful shrubbery, plenty of fruit, in fact, it is ideal and must be seen to be appreciated. The

famous never-failing Cove Spring is located in the corner of the yard. Anyone desiring a small up-to-date well-fixed home with all modern conveniences should not fail to attend this sale and be the last bidder.

TRACT No. 2

Contains seven acres of bottom land, located directly in front of tract No. 1. This tract is very rich and can be cultivated every year in corn or tobacco. Terms liberal and made known on day of sale. Parties desiring to look over this farm will be shown by Howard Vanarsdal on the premises.

PERSONALTY SALE

At the same time and place all the personalty, consisting of stock, crops, farming implements and the household and kitchen furniture will be sold to the highest bidders.
